Further, the scheme can make investments in overseas Exchange Traded Fund (ETF(s) subject to a maximum of US \$ 300 million per Mutual Fund, within the overall industry limit of US \$ 1 billion.

**Portfolio Rebalancing:**

Pursuant to SEBI circular no. SEBI/HO/IMD/IMD-II DOF3/P/CIR/2022/39 dated March 30, 2022, in the event of any deviation from mandated asset allocation mentioned above, due to passive breaches,

rebalancing period will be Thirty (30) business days. In case the portfolio is not rebalanced within Thirty (30) business days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desired, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of the scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMC shall not launch any new scheme till the time the portfolio is rebalanced and also not levy exit load, if any on the investors exiting the Scheme. However, at all times the portfolio will adhere to the overall investment objective of the Scheme.

**Short Term Defensive Consideration**

Subject to SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 04, 2021, the asset allocation pattern indicated above may change for a short term period on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the Fund Manager, the intention being at all times to seek to protect the interests of the Unit holders. In case of any deviation, the portfolio shall be rebalanced within 30 calendar days.

**Investment Strategy**

The investment objective of the fund is to generate long-term capital appreciation by investing primarily in equity and equity related instruments selected based on an in-house proprietary quantitative model. The investment process will be based on a factor based approach with the aim of generating superior risk adjusted returns compared to the benchmark. The factors employed are the ones that have a strong academic basis and / or are considered central by fundamental investors in their process as can be seen from the list below.

The fund will predominantly invest in stocks from a universe of NIFTY 200 TRI selected based on quantitative measures like data availability, liquidity etc. Subsequently factors described below would be used to evaluate the stocks' attractiveness from a risk and return perspective.

An illustrative list of parameters that the model could consider are as follows:

- » **Fundamental Factors:** The model will look at various factors to determine growth outlook while considering valuation parameters for every company. For this, the indicative list of aspects that the model may consider are as follows:
  - Return on Equity & Return on Assets
  - Sales growth
  - Cash flow
  - Operating Profit Margins
  - Net Profit Margins
  - Debt to equity ratio
  - Earnings growth & Revisions
  - Price to book
  - Price to earnings
  - Dividend yield
  - Earnings yield
- » **Technical/ Behavioural Factors:** The model will look to capture the behavioral attributes reflecting in the stock price movement. For this, the indicative list of aspects that the model may consider are as follows:
  - Liquidity
  - Stock price momentum (Relative to itself and cross-section)
  - Volatility
  - Historical performance
  - Ownership patterns
  - Drawdown analysis
  - Consistency of returns
- » **Risk factor:** While looking for the attractiveness of a stock, the model will also analyse the risk levels of the stocks. While some risks can be measured, some cannot. Fund managers may look at some quantitative factors to gauge the risk level of a stock. For this, the indicative list of aspects that model may consider are as follows:
  - Volatility
  - Beta
  - Risk ratios
  - Liquidity as well as overall portfolio churn
- » **Importance of negative 'exclusion' criteria:** it is generally understood that not owning 'poorly run companies' is also a significant source of outperformance over the long term. We narrow down the list of stock by applying objective pre-defined criteria that excludes companies that are either very illiquid or score poorly on governance standards excessive leverage or past drawdown behaviour or capital allocation or return metrics or on operating parameters consistently etc.

The Fund Manager may change the above quantitative and qualitative parameters by addition or deletion of the parameters to optimise the model. The weights are primarily optimised around prudent diversification, with inputs from volatility observed, consideration of portfolio churn etc. The portfolio of the scheme will be reviewed regularly and rebalanced by the Fund Manager based on the output of the model. The fund manager will also review and maintain the model (including variables) on an ongoing basis and make changes as necessary. The approach is to use the quant model as a guide and Fund Manager may also use other parameters, such as economic parameters, investment indicators etc. The Scheme may also invest in equity and equity related instruments which are not a part of in house proprietary quantitative model or invest in other securities as mentioned in the asset allocation table.

The scheme may use Derivatives traded on recognized stock exchanges for hedging, liquidity management as well as portfolio rebalancing.

Although the scheme will predominantly invest in stocks as per the quant theme, it retains the flexibility to take some exposure beyond the theme based on the Fund manager's discretion.

The scheme may invest in Debt & Money Market Instruments primarily for Liquidity purposes as well as for the purpose of meeting redemptions.

The fund may look to invest overseas for the purpose of diversification in terms of markets and currency. This can help the scheme in achieving higher returns, especially in markets that are experiencing strong economic growth or have undervalued assets. However, given the theme of the fund, such exposure will be limited to a maximum of 20% of Net assets.

The Scheme may use SLBM for earning additional income for the scheme with a lesser degree of risk.

Scheme may invest in the units of Mutual Fund schemes of Kotak Mahindra Mutual Fund or any other Mutual Funds in terms of the prevailing SEBI (MF) Regulations.

The scheme may take an exposure in units of REIT and InViTs at an opportune time to generate income from real estate or infrastructure assets. Investing in units REITs and InViTs has the potential to generate capital appreciation and regular income streams.

"Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies".

"The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments".

**Portfolio Turnover:** The scheme being an open ended scheme, it is expected that there would be frequent subscriptions and redemptions.

Hence, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. However this fund being thematic fund based on quantitative model, the turnover could be higher than other diversified equity fund. If trading is done frequently there may be an increase in transaction cost such as brokerage paid etc. The fund manager will endeavour to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. The Scheme has no specific target relating to portfolio turnover. Portfolio Turnover Ratio: Not Applicable (Since the scheme is a new fund to be launched, the said ratio is Not Applicable)

Type of Risks	Measures/ Strategies to control risks

Risk is monitored and necessary action would be taken on the portfolio, if required. Attribution analysis is done to monitor the under or over performance vis a vis the benchmark and the reasons for the same. Portfolio volatility & concentration The overall volatility of the portfolio would be maintained in line with the objective of the scheme Volatility would be monitored with respect to the benchmark and peer set. Liquidity The scheme predominantly invests across market capitalisation which are actively traded and thereby liquid. The fund manager may also keep some portion of the portfolio in debt and money market instruments and/or cash within the specified asset allocation framework for the purpose of meeting redemptions. The liquidity would be monitored and necessary action would be taken on the portfolio if required. Stock turnover is monitored at regular intervals. The debt/ money market instruments that are invested by the fund will have a short term duration.

Type of Risks	Measures/ Strategies to control risks
<b>Debt and Money Market instruments</b>	<ul style="list-style-type: none"> <li>Credit Risk: Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken.</li> <li>Price-Risk or Interest-Rate Risk: The Scheme may primarily invest the debt portion of the portfolio in short term debt &amp; money market instruments, units of Liquid and Overnight schemes thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities.</li> <li>Risk of Rating Migration: The Scheme may primarily invest the debt portion of the portfolio in short-term debt &amp; money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of rating migration generally associated with long-term securities</li> <li>Basis Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments.</li> <li>Spread Risk: The Scheme may primarily invest the debt portion of the portfolio in short-term debt &amp; money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of spread expansion which is generally associated with long-term securities</li> <li>Reinvestment Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. Reinvestment risks will be limited to the extent of debt instruments, which will be a very small portion of the overall portfolio value.</li> <li>Liquidity Risk: The Scheme may, however, endeavor to minimize liquidity risk by primarily investing the debt portion of the portfolio in relatively liquid short-term debt &amp; money market instruments, units of Liquid and Overnight schemes.</li> </ul>
<b>Derivatives</b>	The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Equity Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. Derivatives can be either exchange traded or can be over the counter (OTC). Exchange traded derivatives are listed and traded on stock exchanges whereas OTC derivative transactions are generally structured between two counterparties. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID.
<b>Securities Lending</b>	The SLB shall be operated through Clearing Corporation/Clearing House of stock exchanges having nation-wide terminals who are registered as Approved Intermediaries (AIs). The risk is adequately covered as Securities Lending & Borrowing (SLB) is an Exchange traded product. Exchange offers an anonymous trading platform and gives the players the advantage of settlement guarantee without the worries of counter party default. However, the Fund may not be able to sell such lent securities during contract period or have to recall the securities which may be at higher than the premium at which the security is lent.
<b>Currency</b>	The scheme subject to applicable regulations shall have the option to enter into forward contracts for the purposes of hedging against the foreign exchange fluctuations. The Schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.
<b>Repo Transactions</b>	This risk is largely mitigated, as the choice of counterparties is largely restricted and their credit rating is taken into account before entering into such transactions. Also operational risks are lower as such trades are settled on a DVP basis. In the event the counterparty is unable to pay back the money to the scheme as contracted on maturity, the scheme may dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to the counterparty
<b>Securitised Debt</b>	In addition to careful scrutiny of credit profile of borrower/pool additional security in the form of adequate cash collaterals and other securities may be obtained
<b>Segregated Portfolio</b>	In such an eventuality it will be AMC's endeavor to realise the segregated holding in the best interest of the investor at the earliest.
<b>REITs and InvITS</b>	The fund will comply with the prescribed SEBI limits on exposure. The scheme will endeavour to invest in liquid REITs & InvITS.
<b>Structured Obligation (SO) &amp; Credit Enhancement (CE) rated securities</b>	Scheme wise investments as prescribed by the regulations limits the exposure to such securities. Additionally, covenants of such structured papers are reviewed periodically for adequate maintenance of covers as prescribed in the Information Memorandum of such papers.
<b>Government securities and Triparty repo on Government securities or treasury bills</b>	As a member of securities segment and Triparty repo segment, maintenance of sufficient margin is a mandatory requirement. CCIL monitors these on a real time basis and requests the participants to provide sufficient margin to enable the trades etc. Also there are stringent conditions / requirements before registering any participants by CCIL in these segments. Since settlement is guaranteed the loss on this account could be minimal though there could be an opportunity loss.
<b>Units of mutual fund schemes</b>	Mutual Fund portfolios are generally well diversified and typically endeavor to provide liquidity normally within T+2

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

The measures mention above is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same.

#### Scheme Specific Risk Factors

The Scheme proposes to invest in a diversified portfolio of equity and equity related instruments by screening, selecting and weighting stocks based on an in-house proprietary quantitative model. This model will factor in various fundamental, technical, quantitative and qualitative factors. The model has been designed on the basis of rigorous back –testing, research of fundamental investment principals and tenets of factor investing. Since majority of investments are made based on a proprietary model, the scheme may not be able to leverage short term opportunities available

in the market from time to time, but may leverage in medium to long term as per back testing of the model. The Fund Manager may deviate from the model, either due to flows/market environment/liquidity considerations/trading cost benefit analysis/any new information on any specific security/sector. However this fund being thematic fund based on quantitative model, the turnover could be higher than other diversified equity fund. There is no guarantee that the factor model will generate higher returns as compared to the benchmark.

For detailed risk profile please refer Risk factors in the SID.

### IMPORTANT INFORMATION INSTRUCTIONS FOR ASBA MUTUAL FUND INVESTORS

**Background:** In its continuing endeavour to make the existing public issue process more efficient SEBI introduced a supplementary process of applying in public issues, viz: the "Applications Supported by Blocked Amount (ASBA)" process. Accordingly, Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009, as amended have been amended for ASBA process. The salient features of circular no. SEBI/CFD/DIL/ASBA/1/2009/30/12 dated December 30, 2009 available on SEBI website for "Additional mode of payment through Applications Supported by Blocked Amount (hereinafter referred to as "ASBA") are mentioned below for understanding the ASBA process:

**1. Meaning of ASBA:** ASBA is an application for subscribing to a New Fund Offer (NFO), containing an authorisation to block the application money in a bank account.

**2. Self Certified Syndicate Bank (SCSB):** SCSB is a banker to an issue registered with the SEBI which offers the facility of applying through the ASBA process. The list of SCSBs will be displayed by SEBI on its website at [www.sebi.gov.in](http://www.sebi.gov.in) from time to time. ASBAs can be accepted only by SCSBs, whose names appear in the list of SCSBs displayed on SEBI's website. As on April 15, 2010, 27 Banks have been recognised as SCSBs. Investors maintaining their accounts in any of these Banks may approach one of the designated branches of these SCSBs for availing this facility. Further it may be noted that from time to time new banks register themselves as SCSBs who become eligible to provide these services and also the existing SCSBs designate additional branches that also provide this facility. An updated list of all the registered SCSBs, their controlling branches, contact details and details of their contact persons, a list of their designated branches which are providing such services is available on the website of SEBI at the address <http://www.sebi.gov.in>. Further these details are also available on the websites of the Stock Exchanges at <http://www.bseindia.com> and <http://www.nseindia.com>. Alternatively, investors may also contact the AMC, R&TA for information about the SCSBs or the ASBA process. These SCSBs are deemed to have entered into an agreement with the Issuer and shall be required to offer the ASBA facility to all its account holders for all issues to which ASBA process is applicable. A SCSB shall identify its Designated Branches (DBs) at which an ASBA bidder shall submit ASBA and shall also identify the Controlling Branch (CB), which shall act as a coordinating branch for the Registrar to the Issue, Stock Exchanges and Merchant Bankers. The SCSB, its DBs and CB shall continue to act as such, for all issues to which ASBA process is applicable. The SCSB may identify new DBs for the purpose of ASBA process and intimate details of the same to SEBI, after which SEBI will add the DB to the list of SCSBs maintained by it. The SCSB shall communicate the following details to Stock Exchanges for making it available on their respective websites. These details shall also be made available by the SCSB on its website: (i) Name and address of the SCSB (ii) Addresses of DBs and CB and other details such as telephone number, fax number and email ids. (iii) Name and contact details of a nodal officer at a senior level from the CB.

**3. Eligibility of Investors:** An Investor shall be eligible to apply through ASBA process, if he/she: (i) is a "Resident Retail Individual Investor, Non-Individual Investor, QIBs, Eligible NRIs applying on non-repatriation basis, Eligible NRIs applying on repatriation basis i.e. any investor, (ii) is applying through blocking of funds in a bank account with the SCSB; Such investors are hereinafter referred as "ASBA Investors".

**4. ASBA Facility in Brief:** Investor shall submit his Bid through an ASBA cum Application Form, either in physical or electronic mode, to the SCSB with whom the bank account of the ASBA Investor or bank account utilised by the ASBA Investor ("ASBA Account") is maintained. The SCSB shall block an amount equal to the NFO application Amount in the bank account specified in the ASBA cum Application Form, physical or electronic, on the basis of an authorisation to this effect given by the account holder at the time of submitting the Application. The Bid Amount shall remain blocked in the aforesaid ASBA Account until the Allotment in the New fund Offer and consequent transfer of the Application Amount against the allocated Units to the Issuer's account designated for this purpose, or until withdrawal/failure of the Offer or until withdrawal/rejection of the ASBA Application, as the case may be. The ASBA data shall thereafter be uploaded by the SCSB in the electronic IPO system of the Stock Exchanges. Once the Allotment is finalised, the R&TA to the NFO shall send an appropriate request to the Controlling Branch of the SCSB for unblocking the relevant bank accounts and for transferring the amount allocable to the successful ASBA Bidders to the AMC account designated for this purpose. In case of withdrawal/Rejection of the Offer, the R&TA to the Offer shall notify the SCSBs to unblock the blocked amount of the ASBA Bidders within one day from the day of receipt of such notification.

**5. Obligations of the AMC:** AMC shall ensure that adequate arrangements are made by the R&TA for the NFO to obtain information about all ASBAs and to treat these applications similar to non-ASBA applications while allotment of Units, as per the procedure specified in the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009.

Investors are requested to check with their respective banks about the availability of the ASBA facility.

#### Other Information for ASBA Investors:

1. SCSB shall not accept any ASBA after the closing time of acceptance on the last day of the NFO period.
2. SCSB shall give ASBA investors an acknowledgment for the receipt of ASBAs.
3. SCSB shall not upload any ASBA in the electronic system of the Stock Exchange(s) unless (i) it has received the ASBA in a physical or electronic form; and (ii) it has blocked the application money in the bank account specified in the ASBA or has systems to ensure that Electronic ASBAs are accepted in the system only after blocking of application money in the relevant bank account opened with it.
4. SCSB shall ensure that complaints of ASBA investors arising out of errors or delay in capturing of data, blocking or unblocking of bank accounts, etc. are satisfactorily redressed.
5. SCSB shall be liable for all its omissions and commissions in discharging responsibilities in the ASBA process.
6. R&TA to the NFO shall act as a nodal agency for redressing complaints of ASBA and non-ASBA investors, including providing guidance to ASBA investors regarding approaching the SCSB concerned.

#### Grounds for rejection of ASBA applications

ASBA application forms can be rejected by the AMC/Registrar/SCSBs, on the following technical grounds:

1. Applications by persons not competent to contract under the Indian Contract Act, 1872, including but not limited to minors, insane persons etc.
2. Mode of ASBA i.e. either Physical ASBA or Electronic ASBA, not selected or ticked.
